scrap ~~xp~~ paper to burn.. ...I don't have personal knowledge of what lies behind the right ad but you hit it right. I understand the nuts of AIB did it, latching Groden in and Lane working himself in. ...As of an hour ago we're not snowed in. My neighbor got his tractor out and rode it back and forth in the lane. First he got his shovel and dug out the end of the lane where the snow-plow had thrown much sno in. While this was not for the serviceman, he was able to drive in with his little Pinto. Meanwhile, report for more snow Wednesday. Day after tomorrow...Otherwis e nothing new. Hope your situation is good. Best, HW 1/23/78
